

A large blue and white sailboat is shown from a high-angle perspective, sailing on the open sea. The boat has a dark hull with a red stripe along the bottom. The main sail is blue with a large white circular logo featuring a stylized profile of a person's head and a series of curved lines. The sky is clear and blue, and the water is a deep blue with some whitecaps. The text 'ATALANTE' is overlaid in white, bold, uppercase letters on the sail.

ATALANTE

ATALANTE

OVERVIEW.

ATALANTE is a Truly Classic design (TC127) from Hoek Designs and constructed at the Claasen Shipyard. The 127 foot superyacht combines the elegant aesthetics of the 1930s with a modern hull configuration to achieve superb sailing performance. In terms of interior style, she has a classic look and feel with raised and fielded panels, white painted panels above wainscot level and a range of classic details.

Her guest accommodation includes a double en suite master cabin with direct access to the aft deckhouse and forward to the salon and bar. There are two further guest cabins - a VIP double to port and a VIP twin to starboard. Both cabins are spacious and finished to the same high standards as the rest of the yacht. On deck there are two cockpits - one aft for sailing and one forward providing a safe, comfortable space amidships for relaxing or alfresco dining.

ATALANTE undergoes continuous maintenance and upgrades and is impeccably maintained to the original "World Superyacht Awards" winning standard. ATALANTE is also offering high speed internet through the use of Starlink.
