OVERVIEW.

The 35.3m (115.7ft) GRANDE 36M features a highly efficient displacement-to-planing hull form, reducing fuel consumption and emissions by up to 30 percent compared to standard hull designs. She is of GRP and carbon fibre construction and built to RINA classification by the Italian shipyard Azimut. Her exterior design is by Alberto Mancini and Achille Salvagni styled her interiors, giving her all-Italian flair.

On the sun deck is a wet bar and U-shaped bench seating beneath the hardtop with a sun lounge aft. The upper deck aft has two lounging areas, one beneath the overhang and another in full sun, as well as a buffet bar. To port the sidedeck leads to a foredeck lounge with seating, a large sunpad and a glass jacuzzi.

The main deck aft has an al fresco lounge with a sofa and chaise longue seating that is served by a wet bar. Steps aft lead down to the large swim platform and beach club with rain shower, while the starboard sidedeck leads up to the foredeck lounge.

An open-plan main saloon has two lounge areas, one with sofa seating the other with armchairs and huge picture windows combining with cut-down bulwarks to deliver exceptional views. The upper deck has the wheelhouse forward with a formal dining area aft surrounded by floor-to-ceiling glass that slides away to open the space on three sides.

The 36M TRIDECK welcomes 10 guests in five cabins. There are four en suite guest cabins on the lower deck; two double VIP suites aft and two twin cabins forward of them. Forward of the guest suites is the crew mess and accommodation for five crew.

Forward on the main deck is the owner's suite, with huge picture windows either side. It features an island king-sized double berth, a lounge area, and en suite with shower room forward. Aft of the owner's suite, the galley and dayhead are off the lobby.

The 36M TRIDECK has a tender garage with a shell door to starboard that can accommodate a tender and PWC. Twin 2,200hp MTU diesel engines give her a cruising speed of 17 knots and a maximum speed of 21 knots. There is an option of upgrading to two 2,400hp MTU engines, increasing these to 18 knots and 24 knots respectively. The yacht also has zero speed stabilisers for comfort at anchor.

Key features

Brand new Azimut 36 Grande, under full warranty
